ADVANCED STEPPED HULL
designed by Adam Younger

With hulls designed by the "Stepped Hull Guru" Adam Younger, Northstar's ION series offers unmatched seakeeping qualities with very high performance levels. All Northstar IONs are manufactured with vacuum infusion technique creating very strong and lightweight composite laminates. Topping our excellent hulls are decks with clean lines and functional features. Both ION 10.5 and 12 offer 4 stand-up bolster seats under the optional hardtop. Suspension seats are also optional. ION series comes with a long list of options allowing you to create an ION just for you.
